OWNER'S MANUAL

Polysphere™ Pool Filtration Balls

IMPORTANT NOTES:

1. Backwash function of sand filter is not applicable as it will damage the product.
2. At the beginning of the new season, check the status of the material and filtration efficiency, evaluating if a replacement is needed.

NOTE: Drawings for illustration purposes only. May not reflect actual product. Not to scale.

NOTE: Polysphere™ Pool Filtration Balls can also be used with other sand filters, use 28 g (0.06 lbs) Polysphere™ Pool Filtration Balls to replace 1 kg (2.20 lbs) sand.

MAINTENANCE:

YOU MUST ENSURE THE PUMP IS UNPLUGGED BEFORE ANY MAINTENANCE

1. Do not use washing machine to wash Polysphere™ Pool Filtration Balls.
2. Hand wash only; if Polysphere™ Pool Filtration Balls remains soiled or discolored, it needs to be replaced.
3. We suggest to check the status of Polysphere™ Pool Filtration Balls every 4 weeks, and if needed, wash them by hand. It may be necessary to adjust the inspection and cleaning frequency according to the actual product and situation.
